EDUCATION

Present 2017	Master of Science (Technology) (est. grad. 06/2020) Information Networks, School of Science, Aalto University
2018 2017	Exchange student Business Informatics, TU Wien
2017 2014	Bachelor of Science (Technology) Information Networks, School of Science, Aalto University
2014 2011	High School Etelä-Tapiolan lukio

WORK EXPERIENCE

08/2017 06/2017	Software development trainee Futurice Oy During the summer I was part of team creating a Node.JS application with TypeScript and D3.JS visualisation library. I also learned how to use the Contentful CDN.
05/2017 01/2016	Software development trainee Profit Software Oy I was part of internal development and mostly programmed in Java, but also used lot of SQL commands and procedures. Shell scripts were an everyday tool and I also became familiar with DevOps components.
10/2015	Seasonal worker Opteam Yhtiöt Oy I was a seasonal worker at Hullut Päivät, Stockmann Oyj in the grocery side. My tasks were mostly cutting and packaging different types of cheese, but I also refilled the store's shelves.
05/2013 10/2012	Marketing lead Kodin Apulaiset NY This was a student-run company in high school as a part of Nuori Yrittäjyys -program. My main focus was on the marketing, graphic design and website management.

PROJECTS & CERTIFICATES
